Newsletter

2023 ANNIVERSARY ISSUE

Dr. Joel M. Abanilla

MESSAGE OF THE EXECUTIVE DIRECTOR

Anniversaries are momentous events because they remind us of something that matter to us. The theme of our center's 48th anniversary "ipinagmamalaki ang serbisyo at pag-ibig" embodies the significance of celebrating this milestone.

Not just because our institution has served the Filipino patients for the last 48 years but because every role and every action we do, we realize its significance not just to the patients, but also to each every one of us working here in the center. The contribution of each PHC employee and staff proudly reflect to the care we give to our patients and communities making the center, really a center of CV excellence.

The restrictions, limitations and challenges of the past three (3) years the COVID-19 pandemic had lashed down on us and has left a mark on each one of us. Being able to celebrate the PHC anniversary in full swing through gatherings, live or blended conferences, onsite events and activities hopefully share the positive and joyful experiences and help further strengthen the camaraderie and togetherness of the PHC community. The raffles and prizes are tokens of appreciation by the center to each employee and staff that has served the center through the ups and downs that we experience in serving our patients and the Filipino community.

The awards and certifications that the center has garnered this past year show the success of our commitment to serve, as well as our strive to be the center of excellent cardiovascular care.

And at this point, a heartfelt appreciation to our patients for trusting the center for their needs, our partners and stakeholders for their continued support, the 48th anniversary committee for making sure that we are able to celebrate wholly but safely as well, and lastly to the people who make the Philippine Heart Center move - the employees and staff. Please give yourselves a big tap on your shoulders for a job well done.
