

HIGHLIGHTS of Accomplishment

EDUCATION AND TRAINING

As a training hospital, the Philippine Heart Center has graduated 221 physicians and 4,461 nurses from its specialty programs from 2005 to 2009 and they are now practicing as cardiovascular experts in the major regions of the country. We also offer postgraduate courses and other training programs for general practitioners, government doctors, nurses and technicians.

We constantly upgrade the skills and competencies of our professionals, training them in the use of new equipment employing new technology. Our nurses, medical technicians and employees also undergo staff development programs and continuing education courses.

2005-2009
